

OMAR SALAM

Irvine, CA • (954) 812-8934 • osalam28@gmail.com • [LinkedIn](#) • [Portfolio](#)

Digital Product Executive with 15+ years building omnichannel products for brands like Under Armour, Taco Bell, and Experian. Led 0→1 launches that grew into \$1B in revenue, secured \$20M in board-approved capital, and earned a U.S. patent for AI/ML innovation.

Player-coach and C-suite partner who builds operating models that create focus and accountability, elevating how teams research, prioritize, and deliver high-impact digital experiences. Track record includes +\$5 AOV, 34% conversion lift, and 3x engagement growth.

WORK EXPERIENCE

Southern California Edison • Rosemead, CA

Head of Digital Product, Customer Experience

September 2025 – Present

Hired to modernize customer digital experience and build product discipline across web, mobile, voice assistant, and conversational AI platforms.

- » Directs \$15M budget (*O&M, engineering & QA*), an 11-person product team, and vendor delivery.
- » Leads conversational AI & personalization engine development for critical moments (outages, high bills, usage spikes). Running experiments to prove we can deflect calls and improve NPS before scaling – on pace to achieve 12% YoY growth in digital self-service.
- » Implements an operating model to create focus and accountability: OKRs, discovery cadence, prioritization rules, governance, and clearer decision rights.

Salam, LLC • Irvine, CA

Principal Consultant, Product Management

July 2023 – September 2025

Provided fractional product leadership across retail, B2B, and consumer services focused on digital strategy, AI implementation, and product model optimization.

- » *Lululemon*: Reduced time-to-market 15% by redesigning planning cadence to align product/ops with supply chain deadlines.
- » *Regional Auto Wholesaler*: Deployed AI-driven demand forecasting and inventory optimization models, increasing profitability by 30% and reducing aged inventory by 10%.

Under Armour • Baltimore, Maryland (*Remote*)

Global Director of Digital Product, Innovation & Emerging Technology

October 2022 – July 2023

Led digital product strategy for a \$5B omnichannel ecosystem across eCommerce (web/app), B2B wholesale, and in-store digital (1,400+ locations), plus emerging technology pilots.

- » Developed a multi-year vision for “Next-Gen Connected Commerce” and secured \$20M in board-approved capital by demonstrating incremental LTV and omnichannel lift to the CEO and investment committee.
- » Launched conversational AI & product recommendation engine to guide customers through complex product catalogs, resulting in 34% conversion lift and \$5 AOV increase.
- » Aligned 12 global product squads (NA, EMEA, APAC) to a value-driven operating model with agile/PI planning governance, and accelerated time-to-market by 4 weeks.
- » Led innovation pipeline using test-and-learn frameworks to pilot AR try-on, social commerce, metaverse experiences; rapid experimentation cycles identified low-impact concepts and protected engineering capacity and budget for high-value outcomes.

Capital Group • Los Angeles, California

AVP, Digital Product

August 2019 – October 2022

Led digital product strategy and experiences for financial advisor-facing platform, tools, and content, and scaled personalization to deepen engagement and improve brand awareness.

- » Launched industry-first “Advisor Benchmarking Experience” comparing performance to peers. Led discovery with 50+ advisors to validate problem before building and led GTM strategy to capture 70% market share of U.S. registered advisors within 12 months.
- » Built AI recommendation engine that shifted advisors from searching to getting personalized suggestions based on client portfolio and behavior. Ran controlled experiments to validate engagement before full rollout and achieved 3x engagement lift and 11% AUM contribution increase.
- » Grew product team from 4 to 8 PMs while improving quality of work by building hiring framework focused on outcome ownership and evidence-based decision making.
- » Implemented OKRs and value-based prioritization to standardize the product development lifecycle, reclaimed 12% engineering capacity by eliminating low-value backlog and shifted the product model to be outcome driven.

Taco Bell • Irvine, California

Principal Product Manager, Digital E-Commerce

July 2018 – August 2019

Drove digital product strategy and led 0→1 launch & GTM for Taco Bell Delivery across all digital channels. IC role leading cross-functional teams including engineering, operations, franchisees, and vendor integrations.

- » Led omnichannel rollout of Taco Bell's Delivery channel, which would later become a \$1B revenue stream; managed the integration of owned digital channels (mobile/web) with POS systems and third-party platforms.
- » Drove the GTM strategy for digital portfolio, driving a 60% YoY increase in digital sales and expanding the brand's footprint in a highly competitive QSR market.
- » Optimized bottom-of-funnel performance to reduce cart abandonment by 8% through A/B testing and checkout journey redesign.

Experian • Orange County, California

Senior Product Manager

November 2015 – July 2018

Led B2B product portfolio and Fortune 500 client partnerships. Launched first SaaS multi-tenant platform and moved organization from waterfall to agile, implementing OKRs and establishing product governance.

- » Awarded U.S. patent for an applied ML-based detection system; led discovery, validation, and go-to-market with Data Science and Product Marketing teams to expand product into new verticals.
- » Drove 8% organic growth by launching the company's first multi-tenant B2B SaaS platform that let clients self-configure, reducing client onboarding from 2 months to 8 hours and proved ROI through beta before scaling to full client base.
- » Led a 200-person Agile transformation from waterfall to hybrid Scrum/Kanban; analyzed team workflows to right-fit methodology, delivered training / adoption support, and standardized discovery practices to drive 20% faster time-to-market.

EARLIER EXPERIENCE

WageWorks • Orange County, California

Senior Product Manager

March 2013 – November 2015

- » Led product development and launch of the nation's first public healthcare marketplace, supporting 10M+ users in a complex regulatory environment.
- » Managed a team of 10 across Engineering, Design, and Compliance to deliver end-to-end enrollment and payment experiences.

JPMorgan Chase & Co. • Miami, Florida

Product Manager, Analytics Platform

August 2011 – March 2013

EDUCATION, RECOGNITION & COMMUNITY

U.S. Patent – "Security and Identity Verification and Architecture" (U.S. Patent #10,896,472)
